We care for you

We give our providers tools, so they can best care for our members. These tools are called clinical practice guidelines. They tell the providers about how to manage illnesses and promote wellness. The guidelines cover care for a variety of illnesses and conditions like diabetes, high blood pressure and depression. They also give information on how to stay well with proper diet, exercise and recommended vaccines.

Learn more. For more information, visit uhcprovider.com/cpg.

A fit family

Easy exercise and healthy eating ideas

Show your kids the importance of exercise by making time for family fitness. Studies show that children with active parents are 6 times more likely to maintain an active lifestyle.

You can make exercise fun with a mix of indoor and outdoor activities. Exercising together is a great way to keep your family healthy and to spend quality time together.

Some ideas for indoor exercise activities are:

- Simple exercises such as jumping jacks, sit-ups or push-ups
- Online exercise videos
- Dancing

Some outdoor exercise activities are:

- Jumping rope
- Riding a bike
- Taking a walk

Healthy eating is also part of staying fit. Try adding more fruits, vegetables, whole grains, low-fat dairy and lean proteins to your family's meals. Reduce saturated fat and added sugars. Limit processed and fast food.

Know your drug benefits

To learn about your prescription drug benefits, visit our website at myuhc.com/communityplan. It includes information on:

- 1. What drugs are covered.** There is a list of covered drugs. You may need to use a generic drug in place of a brand-name drug.
- 2. Where to get your prescriptions filled.** You can find a pharmacy near you that accepts your plan. You may also be able to get certain drugs by mail.

- 3. Rules that may apply.** Some drugs may only be covered in certain cases. For example, you might need to try a different drug first. (This is called step therapy.) Or you might need approval from UnitedHealthcare to use a drug. (This is called prior authorization.) There may also be limits to the amount you can get of certain drugs.
- 4. Any costs to you.** You may have copayments for prescriptions.

Look it up. Find more information at myuhc.com/communityplan. Or call Member Services toll-free at the number listed in the resource corner on page 4 of this newsletter.

Fight the flu

It's time for your annual flu vaccine

The Centers for Disease Control and Prevention (CDC) recommends that everyone 6 months and older get the flu vaccine each year. It is available in the fall and winter months. It is the first and most important step in protecting you and your family against the flu.

If you have not gotten the COVID-19 vaccine yet, talk to your provider about when you should get it. The FDA-authorized COVID-19 vaccines have been proven to be safe and effective for most people ages 12 and older.

It's your best shot. There is no cost to you for the flu or COVID-19 vaccines.

You can get them at any clinic or pharmacy that accepts your plan. Visit myuhc.com/communityplan to find a location near you.

Stay well

Catch up on adolescent well visits and vaccines

Due to COVID-19, many children are behind on their well visits and vaccines. If your child missed their back-to-school checkup this year, it is not too late to make it up.

Well visits are needed all throughout childhood – from babies to teens. These visits may include:

- A physical exam
- Vaccines
- Sight and hearing tests
- Discussion of physical activity and nutrition
- Developmental screenings for speech, feeding and physical activity
- Questions about your child's health and health history
- Lab tests, such as urine and blood tests
- Routine dental checkups twice a year

During the well visit, ask your child's provider if your child is up to date with their vaccines. Staying on schedule with vaccinations protects your child as well as others from getting sick. If your child missed any of their vaccines this year, it's not too late to make them up.

Get checked. Call your child's provider to make an appointment for a well visit. To find a new provider, visit myuhc.com/communityplan.

Or call Member Services toll-free at the phone number listed in the resource corner on page 4 of this newsletter.

Know your risk

Breast cancer and cervical cancer are 2 of the most common types of cancer in women. Here are some factors that may put you at an increased risk for getting them.

Breast cancer risk factors	Cervical cancer risk factors
Are age 50 or older	Have been infected with human papillomavirus (HPV)
Started your period before age 12 or started menopause after age 55	Have had other sexually transmitted infections (STIs)
Have a mother, sister or daughter who has had breast cancer	Have a mother, sister or daughter who has had cervical cancer
Are not physically active	Have had many sexual partners
Drink alcohol or smoke	Smoke

It's important for all women to get screened for these cancers as recommended by the Centers for Disease Control and Prevention (CDC). Screenings can help catch them in their early stages, when they are easier to treat.

Breast cancer screening guidelines	Cervical cancer screening guidelines
Mammograms, which are an X-ray of the breast, should be done every 1 to 2 years for women age 50 or older.	Women between the ages of 21 and 29 should get a Pap smear every 3 years, then Pap and HPV tests every 5 years between the ages of 30 and 65. Testing can end at age 65 for women with a history of normal results.

Make a screening plan.

Talk to your provider about screening for breast cancer and cervical cancer. If you need to find a provider, we can help. Call Member Services toll-free at the phone number listed in the resource corner to the left. Or visit myuhc.com/communityplan.

NOTICE OF NON-DISCRIMINATION

UnitedHealthcare Community Plan complies with Federal civil rights laws. UnitedHealthcare Community Plan does not exclude people or treat them differently because of race, color, national origin, age, disability, or sex.

UnitedHealthcare Community Plan provides the following:

- Free aids and services to people with disabilities to help you communicate with us, such as:
 - Qualified sign language interpreters
 - Written information in other formats (large print, audio, accessible electronic formats, other formats)
